# SITUATION SUMMARY

## Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Level 1	Level 1	Level 1

### **Oroville Dam Auxiliary Spillway Incident**

- Flow from the flood control spillway will be reduced from 40,000 cubic feet per second to zero.
- As flows are reduced, DWR will monitor the status of the dam, spillways, and related structures to ensure their continued safety and stability.
- Flow to the Feather River will be reduced gradually to minimize risk to downstream levees per the Army Corps of Engineers operational requirements.
- This flow reduction in the river will be buffered by the Hyatt Powerplant, Diversion Pool, Thermalito Forebay, and the Thermalito Afterbay to a final flow of 13,000 cubic feet per second.

Per the DWR Flood Operations Center and California Data Exchange Center (CDEC) [as of 04/04/17 at 0900 hours](#):

- Inflow: [16,018](#) cfs.
- Outflow: [10,502](#) cfs.
- The current lake elevation is [843.21](#) feet.

### **Mission Tasking**

- 2017-SOC-33363: Road Repair (Butte County) – On Scene.
- 2017-SOC-34379: Caltrans engineer to visually inspect and conduct Impact-Echo Testing on the gated concrete spillway floor – On Scene
- 2017-CalOES-34685: Asbestos Monitor (Butte County) – Coordinating.
- 2017-SOC-31712: 2 Structural Engineers for evaluation of the Oroville Spillway Bridge (Butte County) – On Scene.

# **SITUATION SUMMARY**

## **2017 February Storms**

### **Cal OES Coastal Region**

#### **Pfeiffer Bridge Incident, Monterey County**

California Highway Patrol (CHP) and Caltrans had a hard closure on the Pfeiffer Bridge on HWY 1 at mile marker 45.52 (SB Sycamore Canyon and the Bridge) due to a crack in the bridge.

- With the bridge removed, the community of Big Sur is isolated, an estimated 450 people, in 3 different areas/enclaves.
- Backup air medical transport plans have been developed for medical emergencies through Cal OES Law Enforcement Branch.
- The southern detour route is open to local traffic only as of 03/13/17.

### **Cal OES Inland Region**

#### **River Forecast - The following rivers are forecast to meet or exceed Monitor Stage:**

- [Plumas County: Middle Fork Feather River at Portola](#)
- Sacramento County: Cosumnes River at Michigan Bar
- San Joaquin County: San Joaquin River at Vernalis
- Stanislaus County: Tuolumne River at Modesto, San Joaquin River at Newman
- Merced County: Merced River at Stevinson

Please see link for River Forecast Guidance - <http://www.cnrfc.noaa.gov/>

### **Cal OES Southern Region**

- Nothing significant to report

# WEATHER OF CONCERN

## Weather of Concern

- An approaching storm system will bring rain and heavy snow to the Sierra Nevada mountains Friday and into the weekend.

## **Active Weather Warnings, Watches and Advisories by County:**

- [http://www.wrh.noaa.gov/sto/brief/www\\_bc\\_cal.php](http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php) - Temporarily unavailable.
- <https://alerts-v2.weather.gov/counties/CA>

# **WEATHER SYNOPSIS BY REGION**

## **NORTHERN CALIFORNIA**

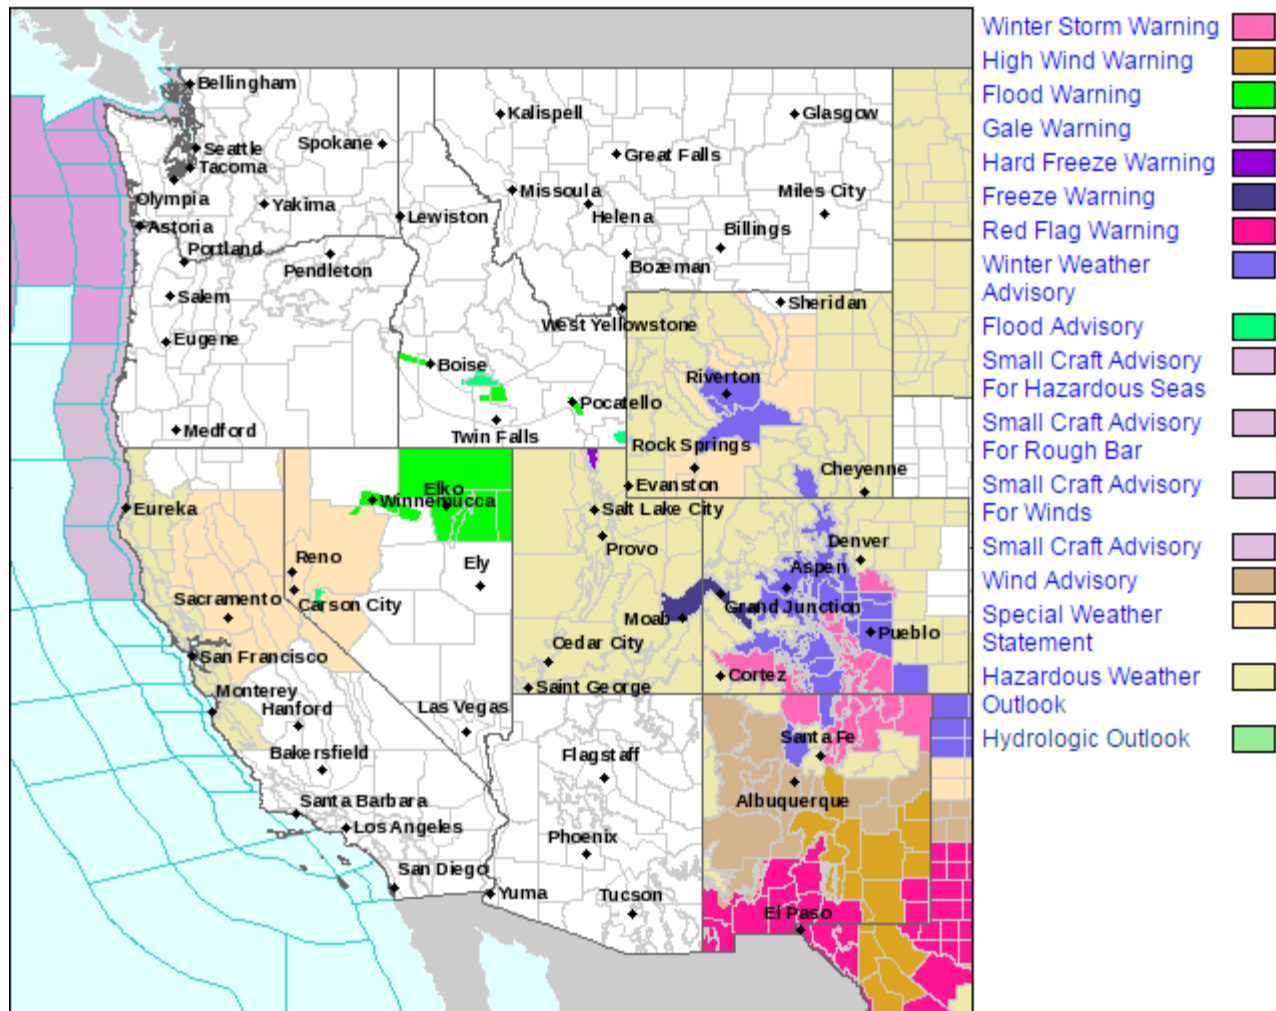

A high pressure ridge over Northern California will produce mild and dry weather through Wednesday afternoon. However, the next Pacific storm is parked offshore and mid and high clouds from it will continue to pass over the region for the next couple of days, until it moves onshore Wednesday night and Thursday. Light rain will move into far northwest California Wednesday night. Light to moderate precipitation will spread to the rest of Northern California on Thursday as the first wave of the storm system moves in. Snow levels will be 5000 ft or higher. More waves of precipitation will move through Thursday night through Saturday, and Sunday night through early Tuesday, with snow levels generally 3000 ft in the north and 5000 ft in the south. The final showers will end in eastern and northern areas Tuesday. Another round of wet weather may reach the region later in the week.

## **SOUTHERN CALIFORNIA**

A ridge of high pressure over California will bring significant warming and low humidity to most of the region through Wednesday. Maximum temperatures will be in the upper 50s and 60s across the mountains and 70s to low 80s in the valleys today, with mid 60s to mid 70s across the mountains and upper 70s and 80s in the valleys Wednesday. Minimum humidity will be mainly between 12% and 25% away from the San Joaquin Valley and coastal areas through Wednesday. The ridge will move east and become centered over the Desert Southwest bringing a little cooling to the region Thursday. Winds will be light through Thursday. A Pacific trough will bring much cooler temperatures Friday and Saturday. This trough will also bring showers to Central California Friday morning through Saturday afternoon and to Southern California Friday night through Saturday afternoon. Most of Central California will receive between 1 and 4 inches of rainfall, while most of Southern California receives less than a half inch of rainfall. The snow level will start between 7,000 and 8,000 feet and then drop to between 5,000 and 6,000 feet by Saturday morning. South to west winds of 20 to 30 mph with gusts to 50 mph will surface across the wind prone mountain and desert areas Thursday evening through Saturday evening. A weak ridge of high pressure will bring a slow warming and drying trend Sunday through early next week.

# Cal OES LAW ENFORCEMENT MISSIONS

## New Cal OES Law Missions

- **2017-LAW-35038, 4/3/17, 2141 hours,** Sutter County Sheriff's Department requested 3 K9 Cadaver Teams to search for a missing 20 yr. old female with suspicious circumstances. The search is in an orchard near Pennington - Live Oak Recreation Park. The missing female's vehicle has been located near the search site. Law Enforcement will be on scene to assist in the search and safety of SAR personnel. The female was originally reported missing from Butte County. Resources are being coordinated via the LDO and CA-OES K9 coordinator. Briefing will be at 0800 hours at Gridley Police Department. **Mission On-Going**

# Cal OES MISSIONS

## Cal OES Missions

- **2016-IREOC-21748:** Tasking Caltrans to extend state highway right of way to facilitate hazard tree removal. This is a long term mission and is expected to remain in place through the summer months. **Mission Ongoing.**
- **2015-IREOC-19846:** One RAWS weather station to Amador OA – On scene 11/30/15, expected to be left in place until May 2017. **Mission Ongoing.**
